VOLUME 97—NUMBER 61

NEWARK, OHIO, MONDAY EVENING, JUNE 9, 1919.

## PEACE WILL STOP MUCH OF UNREST. HOOVER ASSERTS

America Will Not Feed Europe While Her People Loaf.

WILL NOT FINANCE ANY MORE WARS IN EUROPE

Many Nations Will Be Self-Supporting Soon He Declares.

(Associated Press Telegram) Paris, June 9.—"This economic delirium tremens will end with peace," said Herbert C. Hoover, director of the inter-allied food commission today, in discussing the situation in Europe and the need of financing different nations. Asked for a statement as to the financial requirements of Europe from the United States, during the next year he said:

"Any statement is premised upon peace and the return of Europe to work. I do not take it we will finance any more wars in Europe directly or indirectly, nor that we will provide money to enable the people of Europe to live without work or to work part time, as at present all over Europe. This sort of economic delirium tremens will end with peace."

"The amount of credits from the United States to Europe during the year after peace will be determined by the inability of the nations to pay for (A) raw material, machinery and tools, (B) food, (C) currency reorganization, and (D) interest on money borrowed from our government. Rumania, Greater Serbia, Bulgaria, Arabia, Turkey, except Armenia; Portugal, Greece and Hungary will be virtually self-supporting. These states represent nearly one-third the population of Europe."

"Poland and the Baltic states will produce almost enough bread, gains and vegetables for their own people but will be short of fats. Czechoslovakia, Belgium and Finland have a larger export problem for they already require bread, stuffs, meats and fats throughout the year to supplement their own production. These people are already moving energetically to get their industries going, even under the terrible difficulties presented by the armistice situation. The economic problems of most of these states are simple when compared to the larger European nations and the world will be astonished with their recovery if they have peace."

## HELP STOCK UP THE SHELVES; DON'T DRIVE AWAY TRADE WHICH SHOULD COME HERE

A city that attempts to do business without a well financed and organized Chamber of Commerce is as bad off as a merchant without goods on his shelves.

## WOMEN CONDUCTING DRIVE FOR W. S. S. HERE THIS WEEK HAVE DINNER WEDNESDAY

The women who are to conduct the War Savings Stamp drive in Newark next Thursday Friday and Saturday, June 12, 13, 14, will meet for dinner at 6:15. After dinner they will receive their supplies and instructions for the campaign which starts Thursday at 1 o'clock.

Mrs. Ernest T. Johnson, county chairman of the Woman's Division, said this morning that more than 100 women will attend Wednesday's meeting. It is probable that the attendance will exceed that number as additions are now being made rapidly to the working force.

Women who are willing to give a few hours of time to this important patriotic work for three days this week are requested to notify Mrs. Johnson or one of the ward chairmen at once. See the large announcement elsewhere in this edition.

Miss Anna Stare, chairman for the third ward has the following named assistants for the W. S. S. drive: June 12, 13, 14, with more to follow: Mrs. W. E. Shrontz, Mrs. J. W. Hornby, Mrs. Wm. Wulfford, Misses Edna Street, Paula Hershberger, Carrie Miller, May Winters, Frances Oberfeld, Marie Schaller, Helen Hillier, Agnes Murphy, Bertha Stauch.

Mrs. J. A. Mitchell, Second ward, Mrs. Walter Bainbridge, Sixth ward, Mrs. T. J. Appleby, Fourth ward, have their work well organized for this week's drive and will name their workers tomorrow. Mrs. J. W. Weakley, First ward, is to have a meeting in the T. B. church tonight at 6:30 to finish her organization and Mrs. Fred S. Wright, Fifth ward, is busy today perfecting her hand of workers.

A dainty little pin bearing the portrait of Benjamin Franklin, the apostle of Thrift, and reading "War Savings Society" will be presented to every woman who pledges herself to buy \$5 worth or more of War Savings Stamps this week. The solicitors will have these buttons to present as the pledge cards are signed. By the end of June every woman in Jackson county should possess one of these pins.

It is up to the Newark women to decide how big a success this week's W. S. S. drive is to be. There is no doubt about its success. It is simply a matter of the United effort will make the campaign an overwhelming success.

## WOULD FIX GUILT FOR LOSING WAR UP FOR CAMPAIGN

German Statesmen Develop Plan To Try Men Who Started Prolonged and Lost Conflict.

(Associated Press Telegram) Berlin, Sunday, June 8.—The constitutional convention has completed its consideration of a bill creating a state court which would try those accused of starting, lengthening and losing the war. It will be presented in the national assembly soon.

The measures provides for a committee of 15 members, three from each of the nine provinces, to investigate the political and military leadership of the country prior to and during the war and requires the government to produce any documents needed at the trial. The court would be composed of 15 members, including the presidents of the imperial, military, Prussian, Bavarian and Hanseatic supreme courts, five members of the national assembly and five senators. The accused would be permitted to have counsel and would be given the privilege of testifying. Deliberations of the court would be secret and there would be no appeal from its verdict.

The people demand an explanation as to who is guilty for the war; why it was not ended earlier and whether the battle results could have been partly or wholly avoided, says a statement which will be presented to the national assembly. "This is the task of a state court, although it can render no final verdict because it is unable to see the archives of other countries participating in the war. Nevertheless, Germany desires to withhold nothing from the rest of the world and not to stifle the guilty has caused the government apply for the creation of an international investigation commission which was denied by its opponents. So this state court should be created to investigate whether or not Germany has been guilty of conduct against the fatherland."

The statement declares the court should be impartial, free and responsible only to its conscience.

## MYSTERIOUS COPY OF TREATY NOW IN SENATE RECORD

Copy Brought Home By Newspaper Man Will Be Printed.

SENATE CALLS WALL STREET FINANCIERS TO TESTIFY

Will Seek to Learn Why They Are Interested In League Covenant.

(Associated Press Telegram) Washington, June 9.—Investigation of how copies of the peace treaty got into the hands of certain persons in New York was begun today by the senate foreign relations committee and before it was fairly under way a copy of the document was presented to the senate by Senator Borah, Republican of Idaho, and ordered printed in the congressional record. It was a copy brought to the United States by a Chicago newspaper man, probably one of these now on sale in the Scandinavian countries.

The investigation opened with the subpoena of several prominent New York financiers, among them J. P. Morgan, H. P. Davidson and Thomas F. Lamont—all of the Morgan bank house—Jacob Schiff and Frank A. Vanderlip, former president of the National City bank.

Senator Lodge, who made the first charges that the treaty was in the hands of New Yorkers, was the star witness at the opening session. He declined on the ground of his senatorial immunity to give the names of persons who had the treaty, but he would ask permission to disclose their names. Senator Borah, who also made charges similar to Senator Lodge's, said he had not seen copies of the treaty but had been informed that they were in New York. He had no personal knowledge of it, he said.

Acting Secretary Polk of the state department, testified that he has received copies from the American peace mission in Paris, but he said he had no knowledge of the copies being in the state department vault, and believed none of these copies were the ones referred to as being in New York.

Coincidental with the opening of the investigation, President Wilson said he had no knowledge of the treaty being in New York. He said he had no knowledge of the copies being in the state department vault, and believed none of these copies were the ones referred to as being in New York.

In its investigation of how copies of the peace treaty reached New York the senate foreign relations committee today subpoenaed several prominent New York financiers, among them J. P. Morgan, H. P. Davidson and Thomas F. Lamont—all of the Morgan bank house—Jacob Schiff and Frank A. Vanderlip, former president of the National City bank.

Mr. Lamont was requested to bring with him many correspondence which passed between J. P. Morgan & Co. and its Paris agents regarding the treaty, and particularly any communications on the subject between the banking house and Mr. Davidson while the latter was abroad.

The Idaho senator said he was convinced that the international bankers in New York were interested "for private reasons" in the adoption of the League of Nations movement. He added that in his belief the calling of the men named would show how and why they were interested.

Appointment of a subcommittee to do the actual work of calling and questioning witnesses was the principal subject to come up at the meeting. The senate foreign relations committee today also was up for discussion, but the general expectation was that the subcommittee would have wide discretion in that matter.

Meanwhile the senate awaited a reply to the demand for copies of the treaty. This request, embodied in a resolution adopted Friday, immediately was referred to President Wilson by state department officials and the general expectation was that a response would reach the senate either today or tomorrow.

Most senators were predicting today that the request would not be granted, and the same impression was a prevalent one in the senate. "Whatever the senate's reply is, it is expected to start another severe debate on the wide range of issues involved in the controversy over the treaty."

## SENATE ORDERS TREATY PRINTED IN RECORD

(Associated Press Telegram) Washington, June 9.—A copy of the German peace treaty was ordered printed in the senate record by a vote of 47 to 24 today, and put in the congressional record as printed in a public document.

All the bills against publication were cast by the vote, with the exception of that of Senator McMillen of North Dakota, Republican. Senator Thomas, Democrat, of Ohio, moved that the bill be passed without comment for public information.

## WILSON ASKS THOROUGH PROBE OF TREATY NUSS

(Associated Press Telegram) Washington, June 9.—President Wilson today received today by Senator Borah, Republican of Idaho, a letter asking for a thorough investigation of how copies of the peace treaty reached New York. The president said he had felt it "was

highly undesirable officially to communicate the text of a document which still is in negotiation and subject to change," and that any one who had possession of the official English text "has what he is clearly not entitled to have or to communicate."

This statement by the President strengthened the belief of officials here that he would not comply with the request of the senate that the treaty text be furnished it at this time.

The message was transmitted through the White House and was understood to relate to the committee's investigation.

It was the first message regarding the treaty sent to a member of the senate by the President since the convening of the extraordinary session of congress.

The President's message, transmitted through the White House and read by Senator Hitchcock, when the foreign relations committee met today to plan its investigation, follows:

"I am heartily glad that you have demanded an investigation with regard to the possession of texts of the treaty by unauthorized persons. I have felt that it was highly undesirable officially to communicate the text of a document which is still in negotiation and subject to change. Any one who has possession of the official English text has what he is clearly not entitled to have or to communicate. I have felt in honor bound to act in the same spirit and in the same ways as to representatives of the other great powers in this matter, and am confident that my fellow countrymen will not expect me to break faith with them. I hope the investigation will be most thoroughly prosecuted."

(Associated Press Telegram) New York, June 9.—The full text of the treaty of peace with the central powers, which has been the subject of discussion in the United States senate for a week or more, has been brought to this country by Frazier Hunt, a correspondent of the Chicago Tribune, and being syndicated to newspapers in this country in copyrighted sections. The first section appeared today.

Mr. Hunt says the copy of the treaty which he brought here is one of the original drafts and was obtained in Paris. It is printed in French and English, is contained in 416 pages, and runs about 75,000 words. Mr. Hunt says it is quite easy to obtain German translations of the treaty in Germany and neutral countries, but these have omissions and are without the maps which his original draft copy contains.

The summary of the treaty as previously published in this country, Mr. Hunt says, substantially carries the important points of the full treaty and only in a few places are there omissions. He says that the sections relating to the Sarre valley and in reference to the international labor organization.

Another American correspondent abroad also secured and mailed a full copy of the treaty, but the British censor held it up according to a statement published in the newspaper here which he represents. A complaint in the matter will be officially made today, the paper says, to the foreign relations committee of the senate.

(Associated Press Telegram) Warren, O., June 9.—This city adopted central time this morning, setting the clocks back one hour at 2 a. m., following a resolution passed by the city council Friday night ordering the change.

## GERMANS WILL NOT GET REPLY UNTIL FRIDAY

Delay Is Announced by Peace Conference In Ending Parley.

MAKE IT EASIER FOR GERMANS TO JOIN LEAGUE OF NATIONS

Peace Conference Considers Modification of First Terms Named.

(Associated Press Telegram) Paris, June 9.—Premier Clemenceau, president of the peace conference has telegraphed the Hungarian government that attacks by Hungarian troops on Czechoslovak forces must cease, a dispatch from Vienna today says. In case of non-compliance the allied associated governments have decided to use "extreme measures to constrain Hungary to cease hostilities," the premier's message adds.

(Associated Press Telegram) Paris, June 9.—The final draft of the political clauses of the Austrian Treaty is being delayed by discussion of the demand of the Italians for a provision authorizing the deportation of "undesirables" in the part of Austrian Tyrol to be annexed by Italy. This demand is meeting with considerable opposition.

(Associated Press Telegram) Paris, June 9.—It has been decided by the allied and associated governments that the reply to the German counter proposals will not be delivered before June 13. The reply will give the Germans a period of five-days in which to accept or reject the treaty.

The Council of Four spent this morning considering the various reports submitted by the commissions which had been dealing with features of the answer to the German proposals.

## MUST HAVE STABLE GOVT. TO BE ADMITTED

(Associated Press Telegram) Paris, June 9.—Premier Clemenceau, Colonel E. M. House and Lord Robert Cecil have re-examined the terms of the German counter proposals to the League of Nations. Their report which modified somewhat the covenant so as to render the admission of Germany easier, will be submitted to the Council of Four today.

It is understood that the conditions recommended for Germany's admission are:

First, the establishment of a stable government.

Second, the signing of the treaty of peace.

Third, the loyal execution of the peace treaty.

A proposed fourth condition relative to Germany's admission, concerning military service was omitted on the basis of Clemenceau's suggestion. It was considered that the treaty sufficiently provided for Germany's disarmament.

## PREMIERS DIFFER ON NATURE OF REPLY

(Associated Press Telegram) Plans for making the German reply to the peace conference, under consideration by the peace conference. It is shown that she proposes a stable government, signs the peace treaty and loyally executes it she will be admitted according to the proposed plans.

The replies to Germany's counter proposals may be delivered by the latter part of the present week but before the coming Friday, according to present indications. It will be indicated in the reply that Germany must act in acceptance or rejection of the treaty within five days.

Paris dispatches indicate that the delay in framing the reply is due to divergent views held by Premier Clemenceau and Lord Robert Cecil. President Wilson is said to be adhering to his policy of deferring to the British and French in this particular matter.

## WOODMEN HONOR DEAD MEMBERS

### Annual Service is Held At Cedar Hill Cemetery For Those Who Died in Past Year.

Services were held Sunday afternoon at Cedar Hill cemetery, honoring the members of Cedar Grove Woodmen of America, who died during the past year. Among the members honored were three who gave their lives in the great war and one honored in France. While the members bowed their heads, a silent prayer was offered for those now sleeping in France.

Proceeding Attorney Koonitz, of Zanesville delivered the annual memorial address, dwelling on the great need in Ohio for law observance rather than law enforcement. He praised the part taken by the Woodmen in the great war, both in the armed forces of the nation and in the activities at home.

Rev. B. R. Wolf and a male quartet assisted in the program, and a hymn formed part of the service. The service at the cemetery was held from the square to the cemetery, preceded the program.

## NEWARK PEOPLE AT BLACK RUN MEMORIAL

Many Newark people were among the several thousand who attended the memorial services at Baughman's Memorial park near Black Run on Sunday.

The event was arranged by the Union Veterans Legion No. 118 of Zanesville. Wreaths were placed by representatives of various G. A. R. posts throughout the state, and Felix Robertson, local commander, placed a wreath on the monument of Grant. An address was delivered by J. Henry Miller of Newark and the other speakers were Attorney A. A. George, W. S. Matthews, D. M. Hull and Miss Josephine Hull, who gave a recitation.

The daughters of the Veterans and the Women's Relief Corps, placed flags at each monument.

## U. V. L. HONORS DEAD

Impressive services marked the memorial of the Union Veterans Legion at memorial hall on Sunday afternoon. The ritualistic work was a feature of the program and Rev. Charles H. Harris, pastor of the Plymouth Congregational church, delivered the address of the afternoon. Representatives from numerous patriotic bodies were in attendance.

## LIFE THREATENED FOR TIGHTENING IMMIGRANT LAWS

Representative Johnson of Washington has drawn the wrath of the Baltimore because of his work in helping to strengthen the immigration laws. He is chairman of the House committee on immigration. He has received several letters warning him that "terrible punishment" would be meted out to him if he did not cease his activities. He has turned the letters over to the department of justice and is working harder than ever to strengthen the laws.

Mr. John Stone, 1151 South A Street, Fort Smith, Ark., writes:

## LED TO RESCUE BY DREAM

### Tug Captain's Confidence in Vision He Had Proved Fortunate for Two Fishermen

Guided by a dream, Capt. Adam Paezocha of a Lake Michigan tug found two men who had been drifting about helpless in a frozen motor-launch for four days. The rescue was just in time to save the men's lives, for the feet of one were frozen and the other's hands were frostbitten and they were exhausted from cold and hunger.

Captain Paezocha had his dream while taking a nap at his home to Milwaukee one afternoon. When he awoke he described to his family how he had seen a launch drifting about helpless in the storm-swept lake and how he had swung his boat alongside and saved two men.

"I'm going to find them," said the captain, after telling of the dream vision.

He set out the next morning and by mid-afternoon he had located the launch. The two men in the launch were George Costigan and Joseph Rudzewicz, Jones Island fishermen who had met with misfortune while out hauling in their nets. Driven about by a sudden storm that arose on the lake they sought to make shore until the gasoline engine in the launch gave out. Then they drifted about helpless.

The rescued men's first request was for cigarettes. They had been unable to smoke for four days because their matches had become wet.

## IMPORTANT DATE IN HAWAII

### Modern History of Islands May Be Said to Have Begun on October 23, 1819.

The one hundredth anniversary of the departure of the first missionaries from the United States to the Sandwich Islands, as they were then known, will be celebrated at Honolulu, October 23. On that date in the year 1819, the brig Thaddeus, Captain Hunnewell, sailed from Boston for Hawaii. The vessel anchored at Kailua, Kona, Island of Hawaii, April 5, 1820, and the missionaries landed that day to begin their work of civilizing the natives and converting them to Christianity. Those who arrived in Hawaii on the Thaddeus were Asa Thurston and Hiram Bingham, ordained missionaries, with their wives; Daniel Chamberlain, Thomas Holmes, Samuel Whitney, Samuel Ruggles, Elisha Loomis and four Hawaiians—Honoli, Hopu and Kanui—who had received some education at Cornwall Institute, and George Humuhonua, son of Kaunua, the king of the Island of Kauai. The Hawaiians had been taken to the United States in trading vessels. Traders and whalers had been visiting Honolulu for some years before the arrival of the missionaries, but it is from the latter event that the modern history of Hawaii dates.

## Wonderful Slot Machine.

Most people are familiar with the machines which sell chocolate and chewing gum. An interesting development in this field is a large apparatus that dispenses bottled beverages, sandwiches and chewing gum. Its cooling chamber has space for the accommodation of 96 bottles, while a precooling compartment, in which bottles are chilled by immersion in the water that drains from the ice, has an equal capacity. In order to encourage patrons to return empty bottles to the machine a stick of gum is discharged when a bottle is placed in the receiver provided for it. A counterfeit detector rejects spurious coins. A complete record of all transactions is kept by a sales-registering mechanism. The only attention the machine requires is that involved in stocking and icing it.

## Untasted Emergency Ration.

A correspondent, writing from the front before the fighting came to an end, said that the emergency ration supplied to our soldiers still remained a mystery to them. Few indeed have even tasted this scientific life-saver of which the army boards are so proud.

It looks like ground oatmeal; but it is said to be the last word in concentrated calories and protein. It contains the juices and sustaining parts of all meats and vegetables known to man, with a little gluten thrown in. Most soldiers have not dared to taste it. A court martial threatens anyone who eats the emergency ration unnecessarily, and almost never, so they say, did any soldier find it necessary. Hot meals from rolling kitchens were virtually always to be had.—Youth's Companion.

## Farm Products by Parcel Post.

Wilmington, Del., is to receive farm products by parcel post truck service. The service between that city and Salisbury, Md., began recently, two large army trucks bearing eggs, butter, fish, oysters, cranberries and such direct from land or sea to the consumer. Stops are made at every town along the route which can claim a post office. Provision has also been made for acceptance of parcel post material for New York, transfers to be made at Chester; and through truck service from Wilmington to Philadelphia will be established.

## A Little Learning.

"Do you subscribe to the theory that a little learning is a dangerous thing?" "Yes," replied Galsprie. "I thought I knew enough about my automobile to take it apart and put it together again, but this bill of \$1447 from a repair shop proves that I didn't."—Birmingham Age-Herald.

## NO GENERAL INCREASE IN TAXICAB RATES

Taxicab prices in the city will not change generally according to many of the different firms. Charles Martin, with headquarters at McMan's restaurant when asked concerning the prevailing rumor this morning said, "I do not know anything about it for I was not consulted. I expect to continue business at the same old stand at the same prices."

Employees of the Service company stated that their prices would remain the same as heretofore.

At the Central Taxi company it was said that there would be no change in prices for the present, but a change would probably be made later.

This evening the Masquer, "In Time's Garden," will be given on Denison campus for the pleasure of commencement visitors and many townspeople are buying tickets for a repetition of the delight of seeing and hearing this splendid production. The hour set is 6:15 and all are expected to be in their places by 6:30 p. m. Following this performance the Lewis prize contest will be held in the Baptist auditorium.

There have been numerous rain flurries and even a good thunder shower since last Friday but with the exception of the Romancers, booked for the campus Saturday night and postponed until Tuesday night, the rain has affected nothing, except a delightful lowering of the temperature. Granville is looking and feeling at her best and seems to be disposing of the visitors with mutual satisfaction. Tomorrow will occur the numerous class reunions; the class day exercises at 9:30 followed by the memorial service to Denison's fallen heroes at 10:30 a. m. on the Denison campus, the alumni meeting in Stone hall at 11:30 a. m. and the reception in Sheppardson commons at 12:40; the meeting of the Society of the Alumni at 2 p. m. in the Baptist church; the baseball game between Alumni and Varsity at 3:30; Senior social in the Commons hall at 7 o'clock; President's reception on Sheppardson campus at 8 o'clock and the performance of the "Romancers" on Denison Campus, postponed from Saturday evening.

Two splendid sermons were delivered in the Baptist church yesterday by Rev. Thomas J. Villers of Detroit whose messages to the graduates was the call to follow Christ. The evening service was conducted in the Y. M. C. and Y. W. C. A. association. The soloist for the morning service was Miss Lois Lockhart, who sang "O Divine Redeemer," with violin obligato by Stanley Miller; for the evening Miss Marie Chrysler, a student in the Conservatory, sang with pleasing effect. Mrs. Darrow presided at the organ for both services.

Dr. and Mrs. H. R. Hundley are en-

tertaining during commencement week their brother and sister Dr. and Mrs. B. F. Motlee of Pittsburgh, with their two daughters, Misses Eleanor and Frances Motlee. The latter a graduate this year from Denison.

Mrs. James H. Hopley of Bucyrus, accompanied by her cousin Miss Estelle Thompson arrived this afternoon as the commencement guests of Mr. and Mrs. Burton Case.

Mr. and Mrs. Charles T. Atwell of Zanesville and their son Donald, 15, who has returned from army service are among the commencement visitors.

Miss Essie Bolen of Wilkesville was a visitor at the home of Mr. and Mrs. William Black for the High school commencement last week.

Mr. and Mrs. Edwin Wright have as their house guest for a fortnight, their nephew George Pratt of Philadelphia, an ensign in the U. S. Navy.

President and Mrs. C. W. Chamberlain will entertain a large house party during commencement, among the number being Mr. and Mrs. Ambrose Sweeney of Cleveland, Mr. and Mrs. Lee Cottle of Mansfield and Miss Grace McClelland from overseas. Several of the Denison trustees will be entertained at the president's house.

The memorial service for former Denison presidents, held in the college cemetery Sunday afternoon, was beautiful and impressive. President Hall was spoken of by J. W. Weddell, 76; President Going by Charles Sargent; President Irwin by J. E. Davies; President Talbot and Prof. John Stevens by S. B. Eilerly; President Andrews by J. W. Weddell, and Acting President R. S. Colwell in an eloquent address by President C. W. Chamberlain. During the address flowers were strewn by children over the honored graves. The college quartet sang in effective style. Professors Johnston, Stickney, Ebaugh and Boughton.

Commencement visitors who bring their small children, will find accommodations for them in Burton hall during the forenoon, afternoon and evening exercises.

Mr. and Mrs. L. H. Cammack and Elbert Doskirk of '88, motored to Granville from Huntington, W. Va., to attend a reunion of their class.

Among the entertainments this evening the opera house will hold its own with a charmingly human and diverting play, starring Bryant Washburn, entitled "The Way of a Man With a Maid." The present tendency to extravagant living, centering round the pretty heroine, Wanda Hawley, is well depicted.

The meeting called by W. H. Kussmaul for the purpose of organizing the business men for a big Fourth of July celebration, resulted in the appointment of committees. The chairman followed executive committee. Thomas M. Kier; publicity, W. H. Kussmaul; finance, Thomas M. Kier; relics, Joe Haskins; picnic, Bert Nichols; decorating, W. S. ## GAS BIKES GIVE EXHIBITION ONLY

Rain Interferes With Speed Program Arranged For Sunday On Half-Mile Oval.

The motorcycle races planned for yesterday afternoon have been postponed until next Sunday afternoon because of the heavy condition of the track at Moundbuilders Park following the rain which fell yesterday shortly after one o'clock.

There were over 1,000 spectators at the track and had it not been for the threatening weather, the rain which fell later and the band concert in the court house park there is no doubt but that several thousand people would have attended.

Motorcycle racers and enthusiasts were present from all the surrounding towns and a half dozen riders appeared from Columbus, two of them sending their machines over on a truck instead of riding them. Six riders were here from Zanesville, two from Coshocton and two from Mt. Vernon and with the local riders more than 30 were ready to participate in the events.

Only two races were given after the rain had been worked for an hour and a half. Two five mile exhibition races only. Both were won by Harold Deane, foreman of the Advocate press room. The first race was won in 6:35 and the second in 6:10. This is remarkable time considering the wet condition of the track. It was also very dangerous and one of the riders named Hall, residing in East Newark, went through the fence. His machine, a new Excelsior, was badly damaged, and Hall suffered quite a few body bruises. He was forced to use crutches today.

The two ambulances at the track had returned to the city as it was thought there would be no races and Hall was taken to a physician's office in an automobile.

John Mullen, was the starting judge and John Spencer was the time keeper. The races will start next Sunday at 2:30 and there will be a 2, 5, 10, and 20 mile event.

## Mine Produces Coal and Sand.

A mining plant that is decidedly unique is located in Ohio. Both coal and sand are taken from the one property which consists of 150 acres. The surface strata is high grade molting sand and has an average depth of about nine feet. It is deposited on a bed of shale about five feet in thickness and under this is a seam of excellent coal averaging from 4 to 5 feet. Shipments of sand already have been made to foundries throughout the country. A considerable tonnage of coal also has been mined. As the shale strata is uncovered by the removal of the sand, steam shovels will be utilized to strip the shale, thereby exposing the seam of coal which will be mined in the open. In comparatively few localities in the coal seam sufficiently near the surface to permit of stripping. The sand is mined by steam shovel and is conveyed by mine cars to a stockhouse from which it is loaded into cars by a belt conveyor. A force of nine men can load 400 tons of sand a day.—Scientific American.

## Heating Rivets Electrically.

With the employment of women in many forms of work heretofore considered too heavy for them, it has been necessary to modify the equipment and form of work in numerous instances. Such a case is the heating of rivets by electricity in charge of women. Instead of portable, heavy forges operated by turning a heavy crank, there has been introduced an electrically heated forge which is clean, simple to operate, and readily portable. It will heat a standard rivet in 30 seconds.—Scientific American.

Wall Street.  
New York, June 9.—Speculative sentiment on the stock exchange was rather mixed at the opening today, and while prices accordingly reflected this condition, variations for the most part were only fractional either way. United States Steel was a trifle lower, while some of the independent shares improved. Oil stocks also were without definite tone, but the movement here was more pronounced. Mexican Petroleum losing 2 points and Royal Dutch gaining more than one. Later the tendency became rather evenly downward. Atlantic Gulf and Studebaker each losing 4 points.

Professionals who experimented on the short side and found that the usual over Sunday large accumulation of buying orders was lacking, attacked the market vigorously, causing severe declines in various speculative groups. Studebaker fell 10 points; General Motors 7 1/2; Atlantic Gulf, 7 and Mexican Petroleum and Texas company each 4. Renewed talk of Mexican disturbances induced caution and there was some selling of stocks with interest below the board. Toward noon there were some material recoveries from the low levels and a few shares showed positive strength, notably International Harvester.

**Chicago Grain Review.**  
Chicago, June 9.—Owing more or less to absence of any large stocks on hand, the July delivery of corn showed strength today, but later months were bearishly affected by good weather. Opening prices, which ranged from 1.2 cent off to 1/2 cent down, were followed by a decided upturn in July.  
Oats were easier, influenced by lack of demand from the eastward. After opening unchanged at 5 1/2c down, July 1.68 1/4 to 1.69 1/8, and September 1.60 1/4 to 1.60 3/4, were followed by moderate general setbacks, but then by a decided upturn in July.

**Little Rain Falls BUT IT HELPS SOME**  
Thunder showers cooled the atmosphere Sunday, but very little rain fell. The lightning struck the telephone wires in North Fourth street and struck the house of 1000 North Fourth in Hoover street, and caused a terrific fire. Some of the little damage was done, and a chimney knocked down. None of the family was home.

## LITTLE RAIN FALLS BUT IT HELPS SOME

Thunder showers cooled the atmosphere Sunday, but very little rain fell. About 6 o'clock last night, and again this morning, a clear sky, a terrific burst of lightning, almost simultaneous with the fall of thunder, startled the town. The lightning struck the telephone wires in North Fourth street and struck the house of 1000 North Fourth in Hoover street, and caused a terrific fire. Some of the little damage was done, and a chimney knocked down. None of the family was home.

The petition alleges that he is employed at the Baltimore and Ohio railroad shop at a salary of \$100 per month, and that he is also one of the heirs of the estate of the late David Taylor, which estate amounts to approximately \$20,000, and that defendant is about to proceed to convert or conceal the property for the purpose of placing it beyond the reach of the plaintiff and her child and to convert them of any benefit therein. She asked the court to appoint Taylor from converting the property to his own use and also to enjoin the railroad company from paying him any money which may be due him. ## AMUSEMENTS

**AUDITORIUM**  
"Bolshevism on Trial."  
How a beautiful, peaceful island, hatched in the light of love, laughter and law, was changed into a land of hate, license and greed is graphically told in "Bolshevism on Trial," the latest picture ever screened—which can be seen today, Tuesday and Wednesday at the Auditorium theatre.

Captain Norman North, formerly of the Lafayette Escadrille, and the son of a famous naval officer, president of the Pullman Steel Corporation, becomes interested in a project to buy the island of Ventura, a bankrupt winter resort off the coast of Florida, as the site of a Socialist community. He volunteers to secure the funds to buy the island, but it does not prove as easy as he imagined it would. At the last moment when all hope is given up of ever obtaining the island, Norman receives an anonymous note, offering the island to him at a rental of one dollar a year. The colonists arrive at Ventura and find their Communist clients. They soon become dissatisfied with everything. They are not willing to work and dissension spreads throughout the island. Herman Wolff, former leader, is the instigator of the trouble. He does not rest until he has himself appointed Communist Chief. Meanwhile, Norman has fallen desperately in love with Barbara Bontema, a beautiful girl, who has devoted her life to the spreading of the doctrines of Socialism.

Socialism becomes Bolshevism and license rules the island. A beautiful love tale, a thrilling capture and escape and the saving of the island from utter ruin by American sailors, gives this absorbing, world-interesting picture an exciting and quickly moving finish.

Pathe News is an added feature today.

**"Daddy Long Legs."**  
One of the funniest of all the humorous things with which Mary Pickford's new and best feature, "Daddy Long Legs" which will be seen at the Auditorium Thursday is loaded in a series of scenes in which Mary, as Judy Abbott, takes too much hard cider.

The tyrannical head matron has won the battle, being a large woman able to dominate the cowering little waifs who are charges of the institution, and to punish Judy, and the little boy who aided her in her endeavoring the charges, the matron puts them out in the yard with nothing to eat. A thief who has been stealing from a passing wagon throws over the fence a jug of hard cider, and some sandwiches.

Judy and the boys have been praying for food. They think this dropped from Heaven, and proceed to eat and drink without inquiring into the nature of the donation. So it happens that in the most innocent way both children become "happy." Miss Pickford's portrayal of the surprised Judy, who punishes her enemies, gives jam to all the children and defies the ogre of a matron is wonderfully done.

**ALHAMBRA.**  
"The Man in the Open."  
A critic on the Cleveland Plain Dealer in reviewing "The Man in the Open," the Dustin Farnum Photoplay that opens at the Alhambra today, said: "As the title suggests, 'The Man in the Open' has for its leading character one of those vigorous, on-the-square types which Dustin Farnum can portray so well. The background is the western wilds, but the situations throughout are noticeably removed from the conventional western ones, and the whole picture smacks of freshness and individuality. The usual dance halls, holdups and cattle feuds are replaced by the most unusual misadventure of a cowboy, his striving to forget in the great outdoors the unworthy woman of his past, and his ultimate happiness in the love of a good woman. All of this proves dramatic and interesting in the telling, and if from time to time inconsistent scenes appear, and melodrama of the tedious days intrudes itself it can be excused with the good grace which accompanies lively interest.

Pictures of this sort please by their appeal to the imagination as well as by the force of realism. The honest fifth of the cowboy, through all his troubles, his queer combination of strength and weakness, while the customary character of a movie cowboy, is yet ever an appeal to all that is romantic in the outlook. Human touches have been sprinkled in generously, not forgetting the cowboy's love of a far-away gaze as he sits on a lonesome fence. You see a lot of the old ones are there, as well as some brand new ones."

**"The Coming of the Law."**  
Tom Mix has done many devil stunts for the screen, but his latest, made for his new William Fox photoplay, "The Coming of the Law," tops them all. In one scene Mix is walking along a mountain range. The brother of the girl in the story, a subject to epileptic fits, suffers at times from spells of insanity. At this point he is supposed to see Mix and shoot at him. The camera shows him shooting, and then the lens is turned on Mix. Mix wanted to show the bullet in its flight, but he ordered Pat Christman to stand out of the camera and shoot a hole through his neck.

Mix stood nonchalantly looking from the mountain top in Hollywood. Pat Christman pulled the trigger. His aim was a trifle faulty, for the bullet passed underneath the leg in the leg and passed a third of the distance to Mix's shirt. Mix turned to Christman quietly and said:

"You will have to do that over again. Pat. You didn't hit the tie." So Pat fired again at the camera ground, and this time sent the bullet speeding through the collar of the shirt. The tie was cut.

Mix was asked afterwards if it were didn't make him nervous. He replied:

"Why should it? A bullet will go any place you want it to go if you are a good shot, and I would let Pat Christman shoot at me as long as he had a gun. Mix is seen at the Alhambra next Wednesday and Thursday.

**"Oh Johnny."**  
A new and amusing way to punish crooks is shown in "Oh Johnny," the latest feature from the picture in which Louie Lipton will be seen on the screen for the first time at the Alhambra theatre this Friday.

The Long Island country house where Johnny has come to see his wife and which has been robbed by three crooks, is the scene of a strange one of them by posing as an earl and the other two as valets. One crook has gathered the plate which he gets in a large dish while the other

two go upstairs to rifle the rooms of the guests. While he has gone to get a drink Johnny walks in the room, sees the chest with the silverware in it and sets a trap for the burglars. Taking out the silverware he climbs into the chest and hides there.

Meanwhile the other crooks are caught in the act by Adele, Johnny's little partner. They overpower her, throwing a coat over her head, which stifles her screams, and put her in the car. Then they lift the chest into the tonneau. When they arrive at the left where they propose to divide the spoils, the spurious earl offers Adele the choice of going with him as his wife or undergoing a worse fate. They are about to perpetrate a fake marriage when the lid of the chest is thrust up and Johnny appears.

## DECLARES IRISH HAVE CLASHES WITH TROOPS

## ENERGETIC WORK SHOULD BRING THIS VICTORY MEMORIAL TO NEWARK

Year, and this county must pledge an amount equal to at least 15 times its population. By buying War Savings Stamps a community not only aids its government, but helps itself by inculcating the habit of thrift, but may secure a lasting memorial commemorating the stirring years of '17 and '18.

THIS community has the opportunity to secure without cost a \$10,000 Victory Memorial shaft, hewn from beautiful Barre granite. It is to be awarded to the Ohio county selling the largest percentage of its 1919 War Savings Stamp quota during June, July and August, thus giving the small county an equal chance with the large.

The great army that died is one that must ever be kept in remembrance, as meet the host of those who labored at home that the war might be won. Our allies overseas already are studying their native lands with memorials of sacrifice. Every community in this country is planning something in remembrance of those who made victory possible.

The memorial offered by the Ohio War Savings Committee stands 30 feet high on a base six feet square. Barre granite, from which it is hewn, is a richly colored stone of fine grained crystalline texture. Its gray shades will not fade and a monument cut from this rock not only remains permanently substantial, but retains all of its original beauty.

## NO CRISIS IN BERLIN CABINET OFFICIALS SAY

There is no internal difference as to leading national and foreign issues and this is the only government available or possible which can sign or reject the peace treaty, a member of the government told the Associated Press today.

The cabinet. The issue, it is contended, cannot be decided until peace is arranged and is, in any case, purely personal. There is no internal difference as to leading national and foreign issues and this is the only government available or possible which can sign or reject the peace treaty, a member of the government told the Associated Press today.
